

# METAL MESH PROTECTIVE GLOVE

Part No. **1205SS**

Part No. **1205SB**

AVAILABLE IN SNAP OR BUCKLE CLOSURE:

## A Glove Designed for Food Service and Commercial Kitchens with a Silicone Wrist Strap

This protective glove series offers the ultimate defense against cuts, abrasion and lacerations. The non-corrosive surgical steel mesh is ideal for wet work environments. This metal mesh glove is available in sizes XS through XL. Metal mesh gloves meet the requirements of 21CFR and offer the highest level of cut protection for food service.

### METAL MESH FEATURES:

- Five Finger Reversible Wrist Length
- Non-Corrosive Appropriate for Wet Environmental Conditions
- Resistant to Knife Penetration

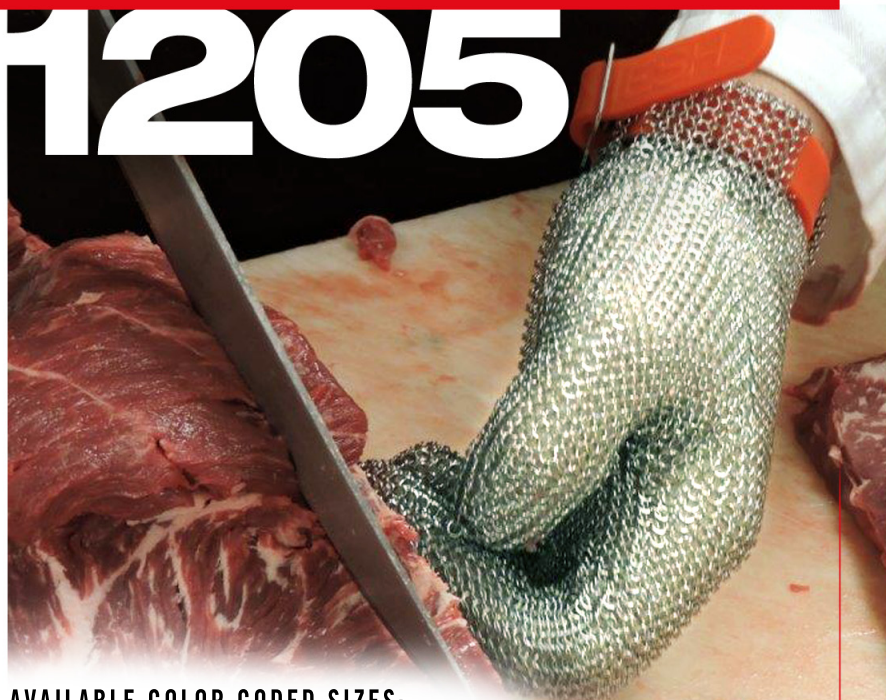

Certified to ISO 9001:2008 (with Design)
